AT&T Wireless Model (M-COR AX)

Certified & Managed By

# PRICING: LINE FEE + DATA PLANS

---

**LINE FEE = \$7 PER CAMERA PER MONTH**

DATA / MONTH	EST. PHOTOS*	PRICE / MONTH**
5MB	100	\$1
25MB	500	\$3
50MB	1,000	\$5
100MB	2,000	\$10
250MB	5,000	\$15
500MB	10,000	\$20
1GB	20,000	\$30
2GB	40,000	\$60
5GB	100,000	\$120
10GB	200,000	\$220

**NOTE:** The data from the plan that you choose is shared between any and all cameras that are on your account, not per camera. Also, sending videos requires more data than still photos, so keep this in mind when selecting your data plan. One 5-second video is usually between 1.5MB and 2.0MB, but many factors can influence video file size.

\* The size of an actual photo or video will vary depending on the colors in the frame, day or night timing as well as other factors. Scoutek and its partners help reduce the amount of data required by reducing the resolution of all photos prior to uploading. With Scoutek you can always request to upload the high resolution copy of photos if they still remain on the SD card. There is no additional charge for HD photos, however the size of the HD photo will count towards the data plan.

\*\* The overage rate of \$0.15 per 1MB applies to all data plans.

# WAYS TO RECEIVE PHOTOS & VIDEOS

---

## 1. M-COR + SCOUTEK WIRELESS (Via Scoutek App)

When you purchase a Radix Hunting M-COR Cellular Camera, of which all are certified through Scoutek, you have a one-stop-solution to get your M-COR up and running as fast as possible. No need to go to a third party or separate carrier site. You can activate the certified camera directly using the Scoutek Wireless cellular service. This will not be tied to any mobile phone service that you may have and does not require you use the same carrier as what you use for any mobile phones. With Scoutek Wireless, no contract is ever required.

There is a nominal monthly fee (Line Fee) for each camera that you activate.

Then just select one data plan that all of your M-COR Cellular Cameras will share the data from. This eliminates the concern about one camera getting a lot of activity while others have less.

# ADDITIONAL INFORMATION

---

3. Select a your desired Data Plan for ALL Cameras.
4. Install batteries & SD card into your M-COR; Power ON.
5. Register and Activate one or more M-COR's by following prompts.  
*- Start receiving photos or videos from your M-COR Cellular Camera -*

## DATA PLANS, STORAGE PLANS, MEMBERSHIPS & OTHER SERVICES

There are a number of underlying factors and costs to Scoutek associated with each Data Plan, Storage Plan, Membership and other services including but not limited to third party cost for data plans, network usage cost, cloud storage cost, credit card fees and more. In addition, Scoutek does not require a contract for services offered and Scoutek bills only one month in advance for monthly services. Scoutek does require a MINIMUM of one calendar month notice to terminate any automatic renewals of plans or services. This notice may be done by logging into your Scoutek account and following the link to the "My Account" page. From the My Account page members can locate the section which shows the plans or services and simply uncheck (turn off) the "Auto Renew" options for services they no longer wish to keep active.

FOR THE REASONS LISTED ABOVE SCOUTEK SHALL NOT OFFER ANY REFUNDS FOR LINE FEES, DATA PLANS, STORAGE PLANS, MEMBERSHIPS OR OTHER SERVICES.
